We are independent of government and have no political or religious affiliation. Our purpose is to strive for a just world that advances children’s rights and equality for girls. We have been building powerful partnerships for children for more than 80 years, and are now active in more than 70 countries.

We have committed ourselves to the ambitious target of reaching 100 million girls over 5 years, to ensure they can learn, lead, decide and thrive. This is our contribution to reaching the sustainable development goals, and in particular the goals on gender equality.
